

Transcription of the 1901 census returns for the Parish of Lymptone, being Enumeration Districts 14 and 15 of the Registration District of St Thomas.

NOTES

- Where possible, separate households are shown terminated by a **red line** and separate census pages are shown terminated by a **blue line** (and sometimes a single household is split across two census pages).
- Not all of the original columns are included, for example the number of rooms has not been transcribed.
- Where an address is given, it is shown only once but assumed to apply to all in the household.
- Where “Do” (meaning ‘ditto’) is used in the original document the word is entered in full.
- Where entries cannot be fully transcribed due to unclear or obscure manuscript, they are shown in italics with a question mark *thus?*, and where entries are clearly expected but absent, they are shown as *<missing>*.
- Entries for Address and Conditions of Marriage are only included where they are explicitly shown in the original document.
- Entries for Profession or Occupation are generally absent for wives and children younger than approximately 15 years, although for children approximately 5 years and older “Scholar” is often entered.
- Owing to the fact that the entries under “Profession or Occupation” had to be classified by the census authority under standard pre-defined categories, there is often handwritten text added to indicate to which standard category the entry refers. This annotation is only captured in the transcription where it adds obvious clarity. The word “Domestic”, meaning somebody in domestic service, is often included for this purpose.
- “Single” is entered where “Unmarried” is used in other census dates.
- Place of birth shown as <town>,<county> instead of <county>,<town> as in other census dates.
- Where an entry was made in the RH column of the original document describing some form of physical or mental impairment, this is shown in the footnotes at the end of the document.
