

Transcription of the 1939 register returns for the Parish of Lypstone, being Enumeration Districts WIAA, and WIAB of the Registration District of St Thomas.

NOTES

- Where possible, separate households are shown terminated by a **red line** and separate pages are shown terminated by a **blue line** (although redacted records (see below) sometimes introduce ambiguities).
- Not all of the original columns are included, for example the number of houses and rooms have not been transcribed.
- Where an address is given, it is shown only once but assumed to apply to all in the household. Where a 'ditto' mark appears in the address field it implies the address for the previous household is still valid although this must be doubtful for some specific addresses.
- Apart from the address field (see above), where "Do" (meaning 'ditto') is used in the original document the word is entered in full.
- Where entries cannot be fully transcribed due to unclear or obscure manuscript, they are shown in italics with a question mark *thus?*, and where entries are clearly expected but absent, they are shown as *<missing>*.
- The column labelled S, M, W, D indicates a marital status of Single, Married, Widowed, or Divorced.
- Entries for Personal Occupation are generally absent for children younger than approximately 15 years and for married women who are not separately employed, the usual entry is "Unpaid Domestic Duties".
- Owing to the fact that the entries under "Profession or Occupation" had to be classified by the census authority under standard pre-defined categories, there is often handwritten text added to indicate to which standard category the entry refers. This annotation is only captured in the transcription where it adds obvious clarity. The word "Domestic", meaning somebody in domestic service, is often included for this purpose.
- Redacted records in the original scanned document are shown with "*This record is officially closed*" in the name field of this transcription. These records refer to people who were born <100 years before the register was first made available in 2015, unless, for example, they were known to have died. For reasons that are not clear, some sheets have large blocks of redacted records which, although they reveal no useful information, are included here for completeness.
