

Transcription of the 1841 census returns for the Parish of Lympstone, being Enumeration Districts 9 and 10 of the Registration District of St Thomas.

NOTES

- Where possible, separate households are shown terminated by a **red line** and separate census pages are shown terminated by a **blue line**. Sometimes a page boundary occurs within a household and sometimes a household boundary is shown, for example, between the family members and servants.
- Ages of people 15 and older were typically – although not always – rounded down to the nearest multiple of 5.
- Where an address is given, it is shown only once but assumed to apply to all in the household. Where a 'ditto' mark appears in the address field it implies the address for the previous household is still valid, although this must be doubtful for some specific addresses. In many cases the address field simply contains "Lympstone" which could have been a precursor to the start of naming houses after the families who lived there.
- The enumerator's handwriting is often extremely difficult to interpret, resulting in much uncertainty, even for names that are thought to be transcribed correctly. Where entries cannot be fully transcribed due to unclear or obscure manuscript, they are shown in italics with a question mark *thus?*, and where entries are clearly expected but absent, they are shown as *<missing>*.
- Entries for Profession or Occupation are generally absent for wives and children younger than approximately 15 years.
- The commonly occurring occupation Agricultural Labourer is abbreviated to "Ag. Lab." and servants are usually abbreviated as M.S. (Male Servant) or F.S. (Female Servant). Those living from independent private means are shown as "Ind.". Several instances of "Navy H. P." are thought to indicate that the person is in receipt of half pay from the Navy.
